**Sub: Review on ASHA Programme during MIES meetings held at district and block level.**

Sir/Madam,

Since ASHA programme under NHM is an important means of delivering health services at the grassroots level, proper implementation of this programme is equally important for achieving desired impact on the health indicators of the State. Monthly MIES meetings, which are being held regularly at district and block levels, are serving as an effective platform to review the performance of various health programmes.

The monthly activity details performed by the ASHAs vis-à-vis related calculation of the incentives they earned in a reporting month are being calculated and reported through a MS-Excel tool namely '**Monthly ASHA Performance Details and Incentive Payment**' by the block to the district and subsequently by the district to state. This tool has built-in analysis components which provides the range of information regarding both sub-centre and activity wise performance of ASHA. Analytical information obtained from this tool should be discussed in the MIES meetings (both at district and block level) which will help district and block authority to evaluate the performance of ASHAs, to address the gaps identified and, above all, to determine the future plan of action.

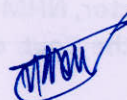

Hence, you are hereby requested to ensure discussion in specific slot for review on ASHA Programme in the MIES meetings.

(Dr. Saumitra Mohan, IAS)
