Memo No. HPH/9M-21/2020/part II/125

Dated: 10.05.2021

ORDER

This is in continuation of HPH/9M-21/2020/Pt II/111 dated 28.04.21 on ensuring admission for Covid suspect patients without a report/with a negative test report for Covid-19 needing emergency care.

It is hereby reiterated that this directive is applicable for **all hospitals both Private and Government including designated Covid hospitals**. All such patients needing urgent attention are to be admitted in SARI beds for necessary management. RAT should be done for detection of Covid infection status. No patient can be referred without stabilizing and arranging bed in the hospital referred to.

This is very urgent and due care of such patients must be ensured. Any deviation will be viewed seriously.
