

Government of West Bengal
Health & Family Welfare Department (PHIP Branch)
Swasthya Bhawan, GN-29, Sector V
Salt Lake, Kolkata 700091

No: 258-HFW/PHP/FILE-01/27082021

Date: 27.8.2021

ORDER

There is general apprehension that children may be affected more in number during the next surge/s of Covid-19. Considering this, Government has planned to protect the children by escalating inpatient as well as community level Covid facilities for the younger age group. Accordingly, order has been issued vide No. 160-HFW18033/14/2021-PHP dated 14.6.2021 for setting up 1300 Paediatric ICU beds and 350 SNCU beds for Covid-19 patients (copy enclosed).

Now, it has been decided that mentoring of those PICU and SNCU units in all the districts across the State would be done in HUB and SPOKE model. The Centre of Excellence (CoE) on Paediatric Covid Care would be established as HUB. PICU and SNCU units at District Hospitals, Sub-divisional Hospital. Super Specialty Hospitals will function as SPOKE.

Paediatric CoE as HUB

Accordingly, it has been decided that CoE on Paediatric Covid Care would be set up in the following three Hospitals:

1. Dr B C Roy Post Graduate Institute of Pediatric Sciences, Kolkata
2. Calcutta National Medical College & Hospital, Kolkata
3. North Bengal Medical College & Hospital, Siliguri

Roles of CoE on Paediatric Covid Care (Hub) will be as follows:

- a) Mentoring of maximum thirty (30) SPOKE Hospitals- organizing training of Specialists, Medical Officers, Nursing staff, technicians and other staff. Training will be organized both in offline and online modes.
- b) Monitoring medical condition of Covid-19 positive admitted children at SPOKES on daily basis and providing tele consultations. Software for daily monitoring of patient condition will be developed by this Department.
- c) Establishing referral chain with SPOKES

- d) Arrangement of clinical management of both Covid-19 and non Covid patients. Proper planning is to be well advance.
- e) It is desirable that for one (1) ventilated ICU bed there will be 2 non ventilated ICU beds and 3 general beds. This will enable optimum utilization of specialists, MO and nursing staff.
- f) Two (2) beds for highly contagious diseases are to be dedicated at each ICU of CoE.
- g) Nodal officers- one from specialists/MO and one from nursing staff to be identified. Nodal Officer will keep liaison with SPOKES on daily basis.

Paediatric Critical Care units at hospitals as SPOKE

As mentioned above, it has been decided that Pediatric ICUs (PICU) would be set up at total eighty nine (89) District Hospitals, Sub-divisional Hospital, Super Specialty Hospitals. Those will be attached with above mentioned three (3) CoE hospitals and would function as SPOKES (**Annexure A**). Also, Neonatal ICUs (NICU) at seventy two (72) different hospitals would be covered under these CoE hospitals as SPOKES (**Annexure B**).

Roles of SPOKES on Paediatric Covid Care will be as follows:

- a) These hospitals will have provision of critical care units with ventilation support. 24 hour Emergency Services to be ensured.
- b) All Covid-19 positive children with mild, Moderate or severe symptoms required hospitalization are to be admitted and managed at SPOKES.
- c) SPOKES can refer critically ill child to concerned CoE if specific facility for managing any co-morbidity (like paediatric dialysis in case of ARF) is not available at that SPOKE, following prior consultation with CoE.

The following equipment required for the Paediatric CoE and other Paediatric Covid Care Centres would be supplied from the Department. Apart from those equipment, other equipment/consumable required at paediatric wards are to be made available at all of the hospitals for which fund would be provided to hospital.

Equipment and consumable to be supplied from this Department:

- a) Blood Gas Analyser
- b) Bubble CPAP
- c) BiPAP
- d) Neo natal Ventilator

- e) Defibrillator
- f) Multi Channel Monitor
- g) ECG
- h) Paediatric Syringe Pump
- i) Radiant Warmer
- j) Photo Therapy Unit
- k) Infusion Pump
- l) Portable X-Ray with CR

Secretary (PHP)

GOVERNMENT OF WEST BENGAL
HEALTH & FAMILY WELFARE DEPARTMENT
Swasthya Bhawan, GN- 29, Sector- V,
Salt Lake City, Kolkata- 700 091.

No. 160-HFW-18033/14/2021-PHP

Dated: 14.06.2021

Order

Many scientists are of the opinion that children may be affected more in number during the next wave of Covid-19. State Government has planned to protect the children by escalating inpatient Covid facilities for the younger age group. This Department has formed Expert Committee to suggest steps to augment PICU/SNCU/Paediatric HDU beds in the State. In addition to infrastructure, equipment & logistics, training of human resource have been planned. The major decisions are as follows-

Infrastructure

1. **Mild and moderate** paediatric Covid positive cases (**90 day-12 yr**) will be admitted at the Covid female beds. Around 10,000 general beds for female and paediatric cases will be earmarked.
2. 20 percent of SNCU beds will be earmarked for Covid positive cases (**1 day- 90 days**). Around 350 SNCU beds will be kept ready for these babies (mild to critical cases). For admission of non-Covid neonates existing system of admission will remain same (1-28 days).
3. Around 1300 Paediatric ICU beds (PICU) will be arranged at the **existing Covid CCU/HDU** before 3rd wave. Such PICU will be set up at all MCHs, all DHs and SDHs. Paediatricians from the respective facility will guide and supervise patient management. List of facilities where PICU will be set up is enclosed.
4. Every primary tier facility will be linked to nearest higher tier centre. Round the clock tele-consultation with higher tier facility will be made available. Also, transport facility from primary tier to the higher centre will be arranged.

It should be borne in mind that the existing PICU/NICU will be utilized for non-Covid services and should not be converted into Covid ward. Around 1300 **existing Covid CCU/HDU beds at adult wards will be equipped with necessary equipment and consumables** so that those can be used as Covid PICU.

Training

- a. Zonal ToT followed by training of all MO and nurses on basic COVID-19 management at primary tiers will be organized.
- b. Training of MOs, nurses and MTs posted at PICU, SNCU, CCU and HDU on management of severe and critically ill COVID-19 paediatric cases including MIS-C will be organized
- c. Breast feeding and related issues will be integrated in the training plan.

IEC and communication

- a. IEC materials with 'Dos & Don'ts' will be designed for mothers or care givers, who will be staying with every child with COVID-19.
- b. Regular counselling of care giver (by nurses) and feedback to family members (by doctors) is important during the hospital stay.

This order will take immediate effect. Training will be completed by end of July. Supply of equipment, installation and demonstration will be complete by end of August, 2021.
