Order

Shift system for Frontline Medical Personnel in Government Hospitals Treating SARI / COVID -19

Due to the increased patients load, new Covid and SARI wards are opening in many hospitals and extension of the existing bed capacity is required. Additional HR is being deployed from the non Covid hospitals also to cope up with the additional work load. Considering the present situation and for optimal utilization of the HR with adequate scope for recuperation from the strenuous Covid duty, a balance between the duty hours and leave is required.

After careful consideration it has been decided that no staff should be given duty for more than eight hours at a stretch as far as possible unless there is some acute crisis of HR to maintain the shifting roster. In the night preferably 6-7 hours duty should be allotted with one hour overlapping for the critical HR like doctors, nursing and technical staffs. Depending upon the HR, the roster should be prepared with two to three days rest for performing each five days shift duty including the night duties.

This order will be applicable for all the Covid and SARI ward duties from 1st June 2021, in suppression of all previous orders in this respect.
