No. 4329- - HFW-17017/3/2021-IT SEC-Dept. of H&FW Date: 27.06.2022

ORDER

In line with the policy of National Digital Health Mission for generation of Unique Health ID for every patient attending Hospitals, it has been decided to adopt the same process for All the Government hospital under the control of Government of West Bengal.

Production of Aadhar Card or Swasthya sathi Card has already been made mandatory during the time of IPD admission or during the course of stay at the hospitals. Now the HMIS software has been modified such that, on entering the Aadhar ID or Swasthya sathi ID and having consent of the patient/ patient party, the HMIS software will generate the Unique Health ID for the patient.

In order to generate the UHID for the patient:-

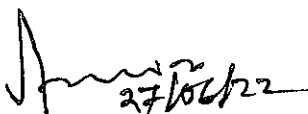

- The patient/ Patient party may be asked to bring Aadhar Card or Swasthya sathi Card and the Aadhar linked mobile during the time of Admission.
- The respective Card number may be entered into the HMIS software, which will fetch the details of patient. The HMIS will ask for OTP sent to the Aadhar linked mobile Number.
- After entering the OTP in HMIS software, the Unique Health ID will be generated and communicated to the Owner of the Card.

It may also be noted that :-

- Admission of patient cannot be denied for non production of any ID Card, the same may be captured any time during the time of stay at the Hospital.
- Even due to some technical failure if the UHID is not generated, admission/ treatment of the patient cannot be delayed.

This process will have immediate effect for all the hospitals where online HMIS is in operation.

Director of Medical Education,
West Bengal

Director of Health Services,
West Bengal
