Memo no HHM / 1H-48-2018/183

Date - 17.05.2018

ORDER

As part of ongoing 'LaQshya Programme' under National Health Mission, each Hospital under 'LaQshya Programme' will have to perform their baseline assessment of Labour room and Maternity ward **every two months** from now on. The assessment will be carried out in a team comprising of all unit in charges who have been trained under LaQshya for Internal Assessment.

The assessment is planned for three days for each facility, two days for assessment and one day for entering the scores in excel score sheet and for discussion and classification of gaps according to severity level.

A team from State will also visit these facilities and will make another round of Internal Assessment shortly.

The assessors would be responsible for ensuring that all relevant standards and criteria are assessed adequately during the survey. The team will prepare the final assessment report to accurately reflect the findings within the agreed timelines. They will collate all 'gaps' and allocate severity level. They will conduct opening and closing meeting in the facility. After completion of the assessment, they are required to prepare assessment report and submit to the Health Facility, with copies to Hospital Administration Branch (wbqabr@gmail.com). Role of assessors would also be to provide supportive supervision at the facilities. The assessors would facilitate development of 'gap-closure' plan at the facility level through a consultative process. No checkpoint should be left blank.

The assessment is to be completed along with score generation within ten days of communication of this order.
